May 23, 2023

Dear Planning Commission members,

I am writing to express concern regarding the proposed development (PLN2020-00467) which includes a massive 11 foot wall that prevents fire access to hundreds of acres of dry trees and brush above two neighboring homes. In recent years, there is a higher fire danger and my concern is that the proposal puts the entire canyon at risk with the current proposed design.

Thank you for considering the safety of the entire neighborhood.

With appreciation,

J Bourne
Neighborhood resident
